Soft Skills: Communication, Leadership, Agile Teamwork, Time Management

Languages Spoken: English (Fluent), French (Fluent)

EDUCATION

Bachelor of Software Engineering, Co-op Option

- Third year, 9.52/12 (B+)
- 2023 President's scholarship

Graduation on April 2028

Carleton University,
Ottawa, ON

EXPERIENCE

Web Associate - The Baldwin Institute, New York, United States

Nov 2024 - Present

React, GitHub, Figma

- Proposed and designed a new website layout in Figma that better reflected the organization's mission, approved by 10+ team members
- contributed to feature implementation (e.g., donation integration) while building frontend skills in JavaScript and React.
- collaborated closely with UX designers to deliver a modern and accessible interface.

Web Project Manager - Dav&Iv Design, Canada, Ontario

Dec 2022 - Present

HTML, CSS, JavaScript, Wix, Shopify, Canva

- Conducted client discovery sessions and interviews to define technical requirements, aligning deliverables with business goals and contributing to 4 new client referrals through high-quality service.
- Designed and launched 10+ cross-platform websites using Wix and Shopify; extended default capabilities through custom HTML/CSS and provider-specific scripting solutions; Tested responsive layouts across devices to guarantee consistent UI/UX.

PROJECTS

Wohsika, Student Finance Tracker

July 2025 - Present

- Designed a finance-tracking app concept to help students manage budgets, inspired by personal struggles with financial organization.
- Released a free Notion template that gained positive feedback from 3+ students, validating demand and shaping product direction.
- Building Figma prototypes; planned features include multi-account support, budgeting categories, and savings goals to expand student financial literacy.

Todo App, Javascript, React, Firebase, Git

August 2025

- Built a React-based todo app with filter functionality for All, Open, and Completed tasks; integrated Firebase authentication; Practiced modular component design and npm package integration., and used Git for version control to track development progress and maintain clean code history.

David's Portfolio, JavaScript, HTML, CSS, SASS, Bootstrap, Git, Figma

June 2025

- Built and deployed a personal portfolio with HTML, SCSS, Bootstrap, and JS libraries to centralize project showcases; reduced recruiter follow-up and project-sharing time by 70% and maintained development using Git for as a source control.

TicTacToe Game, Java

April 2024

- Developed a GUI-based Tic Tac Toe game in Java applying the MVC design pattern and using OOP principles, enabling code reuse and simplified testing; implemented real-time state updates and event-driven gameplay to simulate automated system feedback.

VOLUNTEERING

Club Stim member , Lycée Français Georges Pompidou, United Arab Emirates, Dubai

Sep 2021 - June 2022

- Taught 20+ Grade 6 students web development using HTML and CSS.
- Created custom lesson plans based on student feedback and learning speed.
- Grew student participation by 90% by fostering a supportive and collaborative environment.
